

# EC-Type Examination Certificate (Module B)

Certificate No.: M26017-B-V01

Expiry date: 2031-04-12, Date of (re-)issue: 2026-04-13

This is to certify that the TÜV NORD Systems GmbH & Co. KG – Certification Body (NB0045) did undertake the relevant type approval procedures for the type of equipment identified below which was found to be in compliance with the requirements of

## **Marine Equipment Directive (MED) 2014/90/EU**

subject to any conditions in the schedule attached hereto.

The attached annex (schedule of appraisal) forms part of this certificate.

This certificate remains valid unless suspended, expired or withdrawn, provided the conditions in the attached schedule are complied with.

**Sebastian Capraro**  
Deputy head of certification program MED

- Note 1: This certificate will not be valid if the manufacturer makes any changes or modifications to the approved type of equipment, which have not been notified to, and agreed with the notified body named on this certificate.
- Note 2: During the period of validity of this certificate the applicable regulations (international conventions, the relevant resolutions and circulars of the IMO) and testing standards of the Commission Implementing Regulation may change, therefore the product conformity may need to be re-assessed by the notified body.
- Note 3: The Mark of Conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-control phase module (D, E, or F) of the Directive is fully complied with.
- Note 4: In case limitations of use apply, these should be indicated of in the Annex.
- Note 5: An U.S. Coast Guard approval number will be assigned to the equipment when the production module has been completed and will appear on the production module certificate (module D, E or F), as allowed by the "Agreement between the European Community and the United States of America on the Mutual Recognition of Certificates of Conformity for Marine Equipment"

XXXX/YYYY

# Schedule of appraisal

## Alternative (local) Trade Names:

none

## Approval documentation

- Test report DMT-DO-53-228-R1 issued by DMT GmbH & Co. KG, Prüfstelle für Brandschutz, Germany on 2025-11-18 (Revision 2026-03-26)
- Drawing "KD-0233127-REV0.7" issued Lethe Exterior Doors GmbH on 2025-02-21, Revision 0.7

## Conducted tests:

- Tested according to IMO 2010 FTP Code Annex 1: Part 4

## Technical principles:

"LED.STS.A60" is an electrical sliding fire door control system consisting of an electrically driven closing mechanism for use with the "LED.11IGN.A60" sliding door.

Main system components include: the electrical motor "Eriks 50300-1003A" (ERIKS N.V.), the temperature sensor "HTS 1000" (H-TRONIC GmbH), and the control box "Eriks 50302-1020B" (ERIKS N.V.).

The control box contains the evaluation unit "Emko ESM-1510-N" (Emko Elektronik A.Ş.), the battery (quantity two) "Wing ES 0,8-12" (Wetac Group B.V.), the control system "MDC4" (ERIKS N.V.), the power switch, the main connection, and the power supply "TPSF-120-1-C" (Total Power Europe B.V.). The control box is enclosed (all sides) with the insulating material "SeaPan WP 50/60" from CBG Composite GmbH. The external dimensions of the enclosure are 540 mm x 710 mm x 240 mm (W x H x D).

The motor is connected to the slide track system via a neoprene timing belt. The slide track used is type "HST-S" from Heise GmbH. The motor is installed within the slide track housing of the sliding door "LED.11IGN.A60".

Approved for use as a fire door control system for approved fire sliding doors. The fire door control system has only been evaluated with respect to fire technical properties. Maximum weight of door leaf to be actuated by this control system: 123 kg.

### Applied materials:

Components of the insulating material

- SeaPan WP 50/60 - CBG Composites GmbH

Sealing and Adhesive:

- LR Ceramatrix 01-50 - CBG Composites GmbH

## Installation:

Assembly procedure, usage and maintenance on board as per manufacturer's instruction, which has to be supplied together with the product.

## Remarks:

The requirements of sections 4.1.1.5.5 of SOLAS 74 Reg. II-2/9 and chapter 7.9.3.3.10 of IMO Res. MSC.97(73)-(2000 HSC Code) 7 are fulfilled. All other requirements of section 4.1.1 of SOLAS 74 Reg. II-2/9 and chapter 7.9.3 of IMO Res. MSC.97(73)-(2000 HSC Code) 7 are not evaluated and analyzed within the scope of the certification.

## Limitations / Acceptance on use of the product:

See under "Technical principles" and "Remarks".

**Comment to USCG Approval:**

See under “Technical principles” and “Remarks”.

**Marking:**

The product shall be permanently marked in accordance with Article 10 of the Council Directive 2014/90/EC of 23<sup>rd</sup> of July 2014 on marine equipment, e.g. certificate (approval) number, fire rating, etc.

The Mark of Conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-control phase module (D, E, or F) of the Directive is fully complied with and controlled by a written inspection agreement with a notified body.
